MATTER TO BE LOOKED INTO.

The Charge Made by Mr. Snead-The Mayor Declines to Discuss the Matter-Mr. Carter's Point About the Re-Enactment of Ordinances.

The leading topic of the hour yesterday was the action of the Board of Aldermen ficers for the ensuing year. Mr. John in passing the ordinance framed by the Retrenchment and Reform Committee over the veto of the Mayor by an increased majority. It was a foregone conclusion that the Board would endorse the rean, T. C. Williams, Jr., Granville G. action of the Common Council, but it was generally believed that a very lively and lengthy debate would ensue, and that the majority would be a very narrow one.

As a matter of recorded fact, the discussion, though brief, was decidedly breezy, and Alderman Snead's charge that a member of the committee had approachcertainly be ventilated.

The annual meeting of the State Buildfelt very much like a boy who had gone to a party and been sat upon-he could only keep silence. He was anxious to keep his name out of the public print, as the notoriety was distasteful to him. He did not deny that he had given Algerman and the information that caused such sation at the meeting Tuesday night, and in answer to a question of the re-porter, said that no member of the Reenchment and Reform Committee had, so far, approached him in the premises, had he been asked for the name the member who had made the proposition to him. For the present, he said, he was to keep in the background, but when the time came he should be heard

When questioned as to the necessity for nactment of the ordinance fixing salary of the City Engineer before official can draw any remuneration for his services from the Treasury, a con-tingency which was suggested by Alder-man Carter on Tuesday night as a result of the Board's action, the Mayor laughed somewhat significantly, but declined to commit himself, nor would be vouchsafe any further information on any of the question. THE WORK TO GO ON.

Alderman Zimmermann, a prominer

of the Retrenchment Commitwhen seen yesterday, said that the members of that body were much grati-fied by the action of the Board last night. With the knowledge of the sympathy and confidence of both branches of the City Council, their labors would agreeably lightened. Mr. Zimmermann said the charge against a member of the committee was a very grave one, and would be closely investigated. The matter will probably be discussed

He had investigated the matter very close-

ly, he said, and was confident of the ground he had taken. Several old parliamentarians and prominent politicians were seen in the above connection, and said that they believed Mr. Carter was mistaken in his deductions The ordinance, they had as-certained, had been framed in the regular order by the Retrenchment Commit-tee, and could not possibly affect the old ordinance in any other way than by Mr. C. V. Meredith, City Attorney, said

it would not be proper for him to venture an opinion on the question at present, a in all probability, he would be called to pass upon it hereafter. Several lawyers who were questioned as

City-Accountant McCarthy said he did not believe the question would ever be raised. The Auditor was the only person who could possibly raise it, when appli cation was made to him for salaries by officials interested, and if it was found to be the case that the salaries could not be legally paid, the matter would very promptly be adjusted.

MR. SNEAD'S PROPOSITION. The retrenchment proposition submitted by Mr. Evan Snead to the Board of Alder-Tuesday night was for the reduction of all salaries over \$3,000 a year to the extent of 25 per cent., and the reduct of all salaries over \$1,000 and under \$3,000 15 per cent. His resolution would not salaries under \$1,000, as might have been inferred from the report which ap-

An indefatigable member of the Committee on Retrenchment and Reform said last night: "I believe every member e committee will be present on Thurs-y night except Mr Starke, who has re-gned from the Board of Aldermen, Each member will be asked in turn if he made any such statement to the Mayor as that charged by Mr. Snead, and I believe that

will truthfully answer No. "I do not think Mayor Taylor ever made flat-footed statement as was at such a flat-footed statement tributed to him by Mr. Snead. Every member of the committee, and of the Council too, is aware of the fact that the ary of a city official, elected by the ple, cannot be reduced during his term

I once heard a member of th WILL PUSH THE WORK committee say, jokingly, that this fact might be mentioned to Mayor Taylor as an inducement not to veto the ordinance drawn up by the committee, when the Mayor's salary was touched, and I confidently believe that this suggestion has reached the Mayor, but I do not think it was ever made seriously, or regarded by the Mayor in any other spirit than that in which it was intended. Bettie Dandridge, a small colored girl was shot in the head yesterday morning about 8 o'clock by William Smith, also colored, and about 48 years of age.

William lives in Butchertown, and saw wood and does odd jobs for a living, and was just beginning his day's rounds, when, at Thirteenth and Leigh streets, he was attracted by a party of young street arabs shooting craps. The wood-sawyer made the appearance of interfering, and the boys lit into him like a thousand of bricks, and with as many rocks. Very much enraged, William produced his "gun" upon the scene, at sight of which the offending youngsters took to their heels, with the sawyer in sight-chase. The latter hadn't gone far, when, because there was one cobble-stone too many jus there, he measured his length on the ground. In, falling the pistol was dis-charged, the ball striking the girl, who

RALEIGH, N. This morning Representative Hodges, one of the most extreme of the bolters, said they had issued no ultimatum. The fact developed last night that

twelve of the nineteen bolters were "instructed" to support Pritchard. This was a new revelation. That leaves seven who may not support him. McCaskey seems to be the least advanced of the bolters. He admits as much. Yet he is their chairman and spokesman. The Populists appear to like the in-
